Meeting Evaluation

Thank you for attending the public workshop on the US 281 Super Street Project. Your participation is appreciated.

In order to ensure that future events make the most out of your time commitment, please fill out the following evaluation:

How would you rate today's public workshop?	Excellent Poor				
How would you rate the formal presentation presented tonight?					✓
How would you rate the information provided at each station?				✓	
Were your questions answered adequately?					✓
Please rate the materials presented. Were they organized and appropriate to the subject matter?				✓	
How effectively was your time utilized?					✓

OPTIONAL: So that we can continue to remain in touch with you during this project, please provide the following:

Name: David Hiddle Phone: 210.464.7100

Email: dhiddle@gvta.com

What would be the best way to provide you with follow up information?

Email Notice Newsletter Community Open House Public Announcement

Please use the space provided for any additional comments concerning the proposed US 281 Loop 1604 Interchange:

The Alamo RMA continues to base their plans and projections based on the false premise that overpasses could not be built as "operational and safety improvements" without adding new through lanes.

TXDOT has plans drawn that would qualify but the Alamo RMA refuses to propose any plan that does not include Toll Roads.

If the Alamo RMA was truly interested in serving the area north of Loop property, this project planning (including the environmental study outlined for the 4 connectors) would have included Northbound connectors along with their initial funding request.

US 281 Loop 1604 Interchange Open House and Public Meeting

Welcome!

On behalf of the Alamo Regional Mobility Authority, thank you for joining us this evening to review the proposed US 281 / Loop 1604 Interchange improvements and to offer your comments as part of the official record of this project.

Please visit each of the stations to learn more about the project, ask questions and please provide us with your comments. The Open House will continue until 7 p.m. at which time the formal presentation will begin. At the conclusion of the formal presentation, the Open House will be staffed for any additional questions you may have, and to allow you an additional chance to sign up to speak during the public comment portion of the meeting.

Stations

General Overview

Take a look at the overall project, what it is designed to accomplish and how it can change how you use the Loop 1604 / US 281 Interchange.

Environmental Questions and Concerns

Ever wondered what type of studies and information are examined when we engage in environmental studies for transportation projects? This station will focus on the environmental studies and results based on the proposed interchange. A copy of the draft Categorical Exclusion is also available for review at this station.

Alamo RMA – Information

If you have ever wondered who or what the Alamo RMA is, this station will help answer those questions. Get information on what a Regional Mobility Authority is, and how the Alamo RMA is working to bring projects to the community to help relieve congestion.

Court Reporter

If you would like to have your comments taken by a court reporter, please visit this table.

Formal Presentation and Public Comment Period

The Alamo RMA will be presenting a formal presentation on the proposed improvements, and environmental document for this project starting at 7 p.m. This presentation is estimated to take approximately 20 minutes. At the conclusion of the presentation, there will be a ten minute break to allow you additional time to review the open house stations, and sign up to speak for the public comment portion of the meeting.

For the public comment portion of the evening, please note the following guidelines to allow everyone a chance to speak:

- Each speaker receives 3 minutes to make comments at the microphone designated at the front of the room.
- Time is not transferable between speakers
- A timer will display the 3 minutes allotted, which starts when the speaker begins talking

Again, thank you for joining us this evening. There is an evaluation form on the back that we ask you to complete and leave with us.

POSSIBLY REDLAND AND FURTHER NORTH IF AS I BELIEVE FUNDS WOULD ALLOW.

THESE BRIDGES WOULD BE OVER EXISTING ROAD SO NO ENVIRONMENTAL IMPACT WOULD BE NEEDED.

TRAFFIC LIGHTS WOULD CONTROL TRAFFIC ON THE ROADS BENEATH THE BRIDGES LIKE NOW USED ON BROOKHOLLOW AND THOUSAND OAKS. LITTLE SITE PREPRATION WOULD BE NEEDED BECAUSE BED ROCK IS CLOSE TO THE SURFACE AT THESE LOCATIONS. I FIRST SAW THIS TYPE OF BRIDGE BEING USED IN AN ENGINEERING MAGAZINE. THE LOCATION WAS IN BELGIUM I BELIEVE. I WISH I WOULD HAVE SAVED THE ARTICLE. THIS WOULD BE A LOT BETTER THAN THE SUPER STREET.

Comment:

← Refers to FAQ #2 presented 1/11/2010

Regarding Question #2; your answer is disingenuous. Overpasses
north of 281 could be built north of 1604 to relieve congestion without
adding new through-lanes. Overpasses could be classified as "operational and
safety improvements" and be included in the package north of 1604
without additional environmental clearance.

Once again the Alamo RMA is not acting in the best interest of the
citizens they are bound to serve. Instead, they are doing their best
to serve the Toll Road interests to the detriment of the citizenry they should
be serving.

Comment:

This is the biggest WASTE of taxpayers' money in the entire state. The Alamo RMA consistently refuses to consider ~~and~~ any non-toll projects. You spend all this money on these elaborate meetings and ask for citizen input - THEN YOU COMPLETELY IGNORE WHAT WE SAY. WE THE PEOPLE are ANGRY and you will pay for it at the voting booth.

Please include your name and mailing address with all written comments. Comment forms and/or letters should be mailed to US / Loop 1604 Interchange c/o Alamo RMA, 1222 N. Comment:

Funding: State needs to stop raiding the road-gas-tax
FAQ: "be it an switch enviro study": the road N of 1604 has been studied over
and over. If the "exact study" hasn't been done, then it surely has been from
overpasses
a lack of will since ~~it~~ have been proposed years ago. The overpasses are also
operational and safety concerns.

from FAQ, a: "I still don't want a toll road..." You say that this interchange is separate from
toll roads, however these lanes will work in concert with any lanes north of 1604 and
of course, with proposed overpasses - so they ARE all connected. We need the
overpasses now and NO toll roads.

Please include your name and mailing address with all written comments. Comment forms and/or letters should be mailed to US / Loop 1604 Interchange c/o Alamo RMA, 1222 N. Main Ste 1000, San Antonio, TX 78212. **All written comments received or postmarked by 5pm on Thursday, January 21, 2010, will be included in the official record of the public meeting.**

Comment:

Please consider the west bound ¹⁶⁰⁴ frontage split that ~~is~~ moves traffic onto 1604 Frontage, just West of Sigma Rd. It seems this split should be moved further East to allow easier access ^{to Sonterra} via Sigma &/or Hardy Oaks. Currently the design bypasses easy access to a multitude of business along 1604 frontage

Please include your name and mailing address with all written comments. Comment forms and/or letters should be mailed to US / Loop1604 Interchange c/o Alamo RMA, 1222 N. Comment: The RMA should be part of the MPO
and on its board as well as Mayors of small
Towns concerned with this issue. Gaming
could be utilized to pay for freeways
instead of tolls - why aren't other
options being considered!

Comment:

We live in Oak Haven - exiting Donella when going North on 281. At peak traffic times the traffic on the access Rd is very heavy. If that is the only access for people shopping in Northwoods & HEB it will get worse if you eliminate the present 1604 exit on 281 N - forcing people to exit Donella. Consider some way to alleviate this congestion, please!

Comment:

Well organized arrangement for presentation
of issues and information.

Very good presentation / concise and
informative, covering relevant issues.

We need this project for future traffic
transportation. Do it now so that we can
endure the next 5 years of construction ahead.
