FOR IMMEDIATE RELEASE
October 14, 2011

US 281 / Loop 1604 Interchange Project closures scheduled for Tuesday, October 18, 2011

(San Antonio) – Weather permitting, the following closures will occur Tuesday, October 18, 2011 for the US 281 / Loop 1604 Interchange project.

US 281 entrance ramp – south of 1604 / north of Donella Road.

Closure: The entrance ramp to US 281 southbound, north of Donella Road

Date/Time: Tuesday, October 18, 2011 at 12:00 p.m.

Alternate Route: All traffic seeking to enter US 281 southbound from the frontage road will have to use the Donella intersection and the entrance ramp to US 281 directly south of Donella. This pattern will continue until the Loop 1604 to US 281 south direct connector is completed and opened to traffic. Crews will be adjusting the Donella intersection with US 281 to handle this increased traffic load for the construction period.

Activity: Construction crews will be permanently closing this entrance ramp to allow for the construction of the Loop 1604 to US 281 south direct connector. This ramp will not reopen once it is closed.

No other closures for the US 281 at Loop 1604 Interchange project are anticipated or scheduled for this coming week at this time.

About the Alamo Regional Mobility Authority

Overseen by a seven-member Board of Directors, the Alamo RMA includes a professional staff and consultant team that are committed to finding ways to empower our local community to take charge of our transportation future. The purpose of the Alamo RMA is to provide Bexar County with opportunities to accelerate needed transportation projects - through the direction of a local board making local choices about local mobility needs - that enhance the quality of life and economic growth for all residents in our region
